The APMP Certification Program

The APMP Certification Program is the world's first Professional Certification Program for those working in a bid and proposal environment. The Program uses a process of examination and competency-based assessment, which is consistent and measured against worldwide best practice standards. Each level is tested in a different way, requires a minimum level of experience, and verification with a self-selected reference. The APMP-Foundation™ Level Certification is the entry level for the program.

Why You Should Pursue Certification ?

When you achieve APMP-Foundation™ Level Certification, you demonstrate to your peers, clients and organization that:

- You are knowledgeable of the best practices for bid and proposal management.
- You are committed to your own professional development in the industry.
- You are prepared for additional responsibility and more complex assignments.
- You are positioned for the next level of Certification
– APMP-Practitioner™ Level.

The CSK Certification Webinar

The CSK Certification Webinar offers its proven Certification Preparation Workshop over the web (using WebEx). To combine the cost benefit of a typical web-based solution with the advantages of an on-site training, CSK offers a series of four Webinar sessions with a high level of interaction with a real trainer.

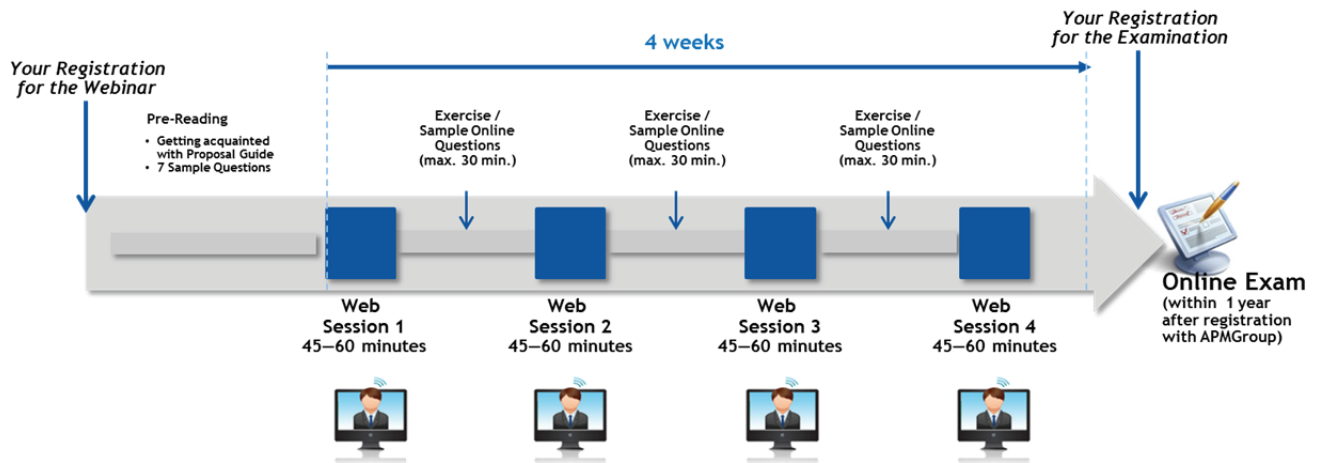

Experience shows that fully automated trainings cannot lead to the same high level of pass rates as those where participants can discuss issues live with a trainer. As opposed to typical online training concepts, CSK provides interactive access to a real trainer delivered over the web. This means learners can resolve issues in real time and comprehension and retention is increased.

To compensate with the potential disadvantage of the fact that you might not be able to attend all the sessions, we record all webinars for you so that you still have access to the same content, too.

Workshop Description

The Webinar is comprised of four training sessions of 45–60 minutes each. Experience shows that sessions longer than this result in a clearly reduced learning effect.

Between the Webinar sessions, you will (according to your level of experience and skills) be able to go through exercises and online sample questions.

The CSK Certification Training includes the following elements:

- We guide you through the APMP-Syllabus to make sure you know which areas are potentially tested.
- The five Key Competence Areas are:
 - Sales Orientation
 - Information Research and Knowledge Management
 - Proposal Planning
 - Proposal Development
 - Proposal Management
- The participants learn the APMP specific terminology
- To prepare for the exam, we guide the participants through typical sample questions
- We provide hints for answering the exam questions most efficiently (types of questions, answering tactics, timing etc.)

After the Webinar series (but within 1 year after registration for the exam), you will individually log-in to take the online examination.

Your Benefits

The CSK combines the cost benefit of a typical web-based solution with the advantages of an on-site training:

- Efficient, web-based delivery, highly interactive due to access to real trainer
- No travel cost
- No travel time required
- Distributed over four weeks – no „block time“ needed

Your Trainer

Christopher S. Kälin, CPP APMP Fellow He is the founder of CSK Management, a specialized consulting boutique for proposal management. His track record shows a profound experience with proposal projects in Europe, Asia and America. Chris developed the BidMaster approach to develop winning proposals. He and his team provide proposal training, and help companies to optimize their proposal processes. He also supports companies "side-by-side" to win strategic deals. Chris is also lecturer at the Zürich University of Applied Sciences. Prior to CSK, he worked with IBM, Arthur D. Little, and SONY. He holds a masters degree in business administration and IT. He speaks German, English, and French. He regularly presents at the Annual APMP conference, the UKAPMP conference, and the APMP DACH conference. Christopher S. Kälin was Regional Director for APMP's Europe/Africa region, and co-founder and chairman of the APMP DACH chapter.

Language

English

Prerequisites

The Foundation Level is aimed at proposal professionals with one to three years of experience. Your one-year minimum experience working in a bid and proposals related environment will be verified with a reference you choose.

CSK is an Approved Training Organization (ATO) of APMP®

All prospective ATOs must go through an exhaustive approval process to ensure they meet the high quality course delivery of APMP certification standards. The process includes designating a lead trainer, attending and auditing workshops led by APMP's Chief Examiner, developing course materials that meet APMP certification standards and having those materials approved.

CSK is highly qualified to run this Certification Webinar. CSK is a specialised training and consulting provider, focusing exclusively on Proposal Management. The course program has been developed for bid and proposal professionals seeking to increase their win rates and to pass APMP's Foundation-Level C.
